Preliminary Examination of Mrs. Tennison, Charged With Poisoning Her Husband.

Outrage Near Chicago—Pursuit and Capture of the Negro—Murderous Russian Fanatics.

Arrest of Two Brothers For Murder—A Wichita Saloon Burned—The Tally-Sheet Frauds.

OLATH, Kan., July 15.—The preliminary examination of Mrs. J. D. Tennison for the alleged poisoning of her husband, was begun in the court house here yesterday before Judge F. N. Hamilton. County Attorney J. W. Parker appeared for the State and Major L. O. Pickering and H. L. Burgess for Mrs. Tennison. Less than half the testimony was introduced, but there was nothing new different from what has already appeared. Five witnesses were examined for the State and all their testimony was against the accused. She was a pitiable looking object as she sat by her counsel, apparently with one foot in the grave and the other on the brink, looking like anyone else but a person who would be guilty of poisoning her husband, after having borne him thirteen children and living with him forty years. Yet the neighbors to a man, who were her guilt, and there seems to be very little, if any, sympathy in her behalf. Even her children, who were present yesterday, don't seem to care what becomes of her. Her lawyers, however, will make a strong fight for her, and it would not be at all surprising if they brought out some new developments during this preliminary examination.

CHICAGO, July 15.—The Hyde Park police were notified last night that Mrs. Jones, the wife of a wood carver in the employ of the Pullman Car Company, had been outraged by a negro. The woman was returning to her home from a saloon with a pitcher of beer about nine o'clock, when she was accosted by a negro who inquired the way to Michigan avenue. As she was directing him he seized her and dragged her into a vacant lot, where he assaulted her. Threatening her life if she ever told any one of the assault, he ran into the woods. The woman gave the alarm and over 100 men, armed with guns and revolvers, started in pursuit of the negro, and after searching ran the fellow down. The negro said his name was J. E. Fowler, and that he came from Iowa, where he had been serving with Sells Bros. circus. He was lodged in jail, and a careful watch is kept as fears are entertained that an attempt will be made to lynch him. Mrs. Jones' terrible experience has completely shattered her nerves and left her almost a total wreck.

LONDON, July 15.—A dispatch from St. Petersburg by way of Gumbinnen, in East Russia, states that on July 10 a band of religious fanatics attempted to murder Grand Duchess Elizabeth, wife of Grand Duke Constantine-Constantinovich, son of the Grand Duke, and Countess of the Czar, at the Poulouak Palace, where she and her husband were stopping. The cause given for the attack was that the Grand Duchess, who is a Lutheran, refused to modify the terms of her marriage settlement, which accorded to her the privilege of remaining a Lutheran, and join the Greek Church. The would-be murderers were caught near the palace, and while being removed to jail they cried: "We have already had enough of Maria Paulowna," referring to the wife of the Grand Duke Vladimir, brother of the Czar, whom the populace have suspected of making proselytes to her faith.

PORT WORTH, Tex., July 15.—Deputy Sheriff James B. Stanley, of Logansport, Ind., arrived in the city from the extreme northwestern portion of the State to-day, having in charge Amer Green, alias Frank Hartman, and W. A. Green, alias Charles H. Hartman, two brothers, who are wanted for two murders, both unproved and cowardly committed during 1886, near Logansport, Ind. W. A. Green killed a young lady to whom he had been engaged, because she refused to marry him after he had been convicted of theft and had served out his sentence. Amer Green killed a man at a picnic while drunk. The two brothers met in Texas and thinking they would be safer away from towns and cities, they went to the western portion of the State, where they were captured. They were started back to Indiana to-day.

WICHITA, Kan., July 15.—Yesterday afternoon a fire broke out in a lumber room on the West side. The building was wood and the flames spread rapidly destroying, besides the lumber room, Dunning's livery stable, Lucas' paint store, Davis' barber shop and Niederlander's real estate office. The loss is estimated to be about \$15,000, besides valuable papers belonging to Mr. Niederlander. The building was insured for \$1,000 in the Aetna. The fire is supposed to have been the work of an incendiary who took this means of ridding the West side of a low saloon over the lumber room.

INDIANAPOLIS, Ind., July 15.—Justice Harlan, of the United States Supreme Court, yesterday listened to arguments in the application filed by Simeon Coy's attorney, for a writ of habeas corpus. Coy is one of the men indicted for complicity in the tally-sheet frauds perpetrated at the last election. The arguments were conducted and the case taken under advisement.

ATTEMPT AT ABDUCTION. LITTLE ROCK, Ark., July 15.—A Hot Springs special says: "At one o'clock this morning Miss Sarah Langdon, the adopted daughter of Mrs. M. Moscotygeratz, was found on the front portico unconscious, having been chloroformed. She was discovered after the inmates of the house had heard a noise in her room, from which she had been dragged by unknown parties, who entered through the window. For several days she had received notes, signed 'Raymond,' professing love for her and requesting a meeting, to which she paid no attention. The police believe the parties concerned in this writing were attempting the girl's abduction when driven away by approaching footsteps."

THE PRESIDENT and the West. WASHINGTON, July 15.—A gentleman who talked with the President a short time ago about his Western trip says: "The President is anxious to visit the West during the autumn and I think I can make positive announcement that the President and his wife will be in St. Louis October 2. He will also, if public business will permit, make the circuit of some of the Western States as planned some time ago."

YELLOW FEVER. KEY WEST, Fla., July 15.—There have been seven new cases of fever since yesterday and no deaths.

THE PENSION CONTROVERSY.

An Inspired Article Claiming That the President and His Administration Have Acted Generously and Fairly Toward Grand Army Men.

WASHINGTON, July 15.—An article is published this morning defending the President and his administration against charges made by dissatisfied Grand Army men. The article is evidently inspired and endeavors to prove by facts and figures that the President has generously treated the old soldiers of the Republic. The following are the salient points:

A number of pensions and a few claim agents in Washington are laboring to convince the country that President Cleveland is an enemy to Union soldiers and opposed to liberal pension legislation. Is the charge true? Let us see what the official records disclose on this subject. President Grant from 1870 to 1877 inclusive, a period of eight years, approved 455 private pension acts; President Hayes from 1877 to 1881 inclusive, a period of four years, approved 334 private pension acts; Presidents Garfield and Arthur from 1881 to 1885 inclusive, a period of four years, approved 736 private pension acts; President Cleveland from 1885 to 1893 inclusive, a period of only two years, has approved 980 private pension acts. This is seventy-seven more than Presidents Grant and Hayes approved in twelve years and 127 more than Presidents Garfield and Arthur approved in four years. These figures are taken from the statutes of the United States and are correct.

What else has President Cleveland done for Union soldiers and their widows, orphans and dependent relatives? First, he has appointed more ex-Union soldiers to office than any other President. He approved the act of March 19, 1886, which increased to \$12 per month the pension of 79,889 widows, minors and dependent relatives of Union soldiers of the late war. He approved the act of August 4, 1886, which increased the pension of 10,000 crippled and maimed Union soldiers of the late war from \$24 to \$30, from \$30 to \$36 and from \$36 to \$45 per month. He approved the act of January 29, 1887, which placed on the pension rolls over 25,000 survivors and widows of the war with Mexico. This is the official record of President Cleveland upon the subject of pensions to soldiers, and has been made in the first two years of his administration. This record is unassailable and amount of reckless denunciation and abuse can break it down.

Against this the enemies of President Cleveland can point to nothing which they disapprove except his veto of 123 unjust private pension bills. That he was right in vetoing every one of these private pension bills is a reading of the cases and an examination of the records in the veto will show, and the veto of the Dependent Pension bill was demanded almost unanimously by the press of the country as well as by thinking men of all parties, both in and out of the ranks of the Union soldiers.

What has been done in two years in the Pension Office under the administration of Commissioner Black? From July 1, 1885, to June 30, 1887, inclusive, a period of two years, 208,657 pension certificates of all classes were issued; from July 1, 1885, to June 30, 1887, inclusive, a period of two years, 129,517 pension certificates of all classes were issued—being an increase of 139,140 certificates in favor of the first two years under Democratic rule over the preceding two years of Republican rule. From July 1, 1885, to June 30, 1887, inclusive, there were disbursed on account of pensions, \$139,584,270.45; from July 1, 1885, to June 30, 1887, inclusive, a period of two years, there were disbursed on account of pensions, \$132,907,243.46—being an increase of \$6,677,026.99 for the first two years under a Democratic administration over the last two years under a Republican administration. On July 1, 1885, there were 308,628 pensioners upon the rolls; on July 1, 1887, there were upon the rolls 345,123 pensioners—being a net increase to the rolls during the last two years under Republican rule of 41,497; on July 1, 1885, there were upon the rolls fully 422,900 pensioners—a net gain to the rolls during the first two years under Democratic rule of 56,873, or 15,408 more of a net gain to the rolls during the first two years of President Cleveland's administration than the last two years of President Arthur's administration, and this in the face of the fact that the clerical force has been reduced 124 within that time and that the death rate among the soldiers is rapidly increasing as years go by.

During the fiscal year ended June 30, 1887, 112,360 certificates of all classes were issued by the Bureau of Pensions, of which 55,194 were original. The highest number of original certificates ever issued in one year before was in 1866, when there were 50,177; so that the number of original certificates issued during the year just closed is 5,017 in excess of the highest number ever before issued in the history of the bureau. The fruits of the administration of President Cleveland show beyond cavil that the Union soldiers of the country never had a better friend.

The republican editors are somewhat premature in the commencement of the presidential campaign of 1888. Of course they are not alarmed as to the result of that campaign, indeed it would be cruel to intimate such a thing. The old story of the boy whistling while passing through the dark woods after night, to keep up his courage, is applicable in their case.—Grand Herald.

BLACK WOLF!

Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of SWARTZ'S SPECIFIC—now known all over the world as S. S. S. Mrs. Bailey, of West Somerville, Mass., near Boston, was attacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say that the disease was a species of

LI ROSY, and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Camelline oil or ointment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of SWARTZ'S SPECIFIC (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. S. until last February; every sore was healed; she discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Bailey, is in business at 77½ Blackstone Street, Boston, and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases, mailed free.
